# WHAT CAN INTERNATIONAL LAW DO?

Protests and petitions are important tools to put pressure on governments. Visa liberalisation and safe escape routes can save lives.

<b>Lea Rösner</b>	Missing Migrants Report to the Council of Europe

Thousands of people are disappearing along the migration routes: over 40,000 are missing in the Mediterranean alone. The reluctance of Frontex and national coastguards to intervene is a major factor. People are being sent back to crisis zones or abandoned in the desert. This has been condemned by the UN Committee against Enforced Disappearances.
